DETAILED ACTION

Specification

The abstract of the disclosure is objected to because it contains legal phraseology, i.e., "said" and "means". Additionally, the abstract is objected to because the recitation in line 1 of "Abstract described is a device" is believed to be better stated as "The invention described is a device." Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 8 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The recitation of "the free end edge or knife edge" lacks antecedent basis. The recitation of "it" in line 2 of the claim is vague and indefinite.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3753

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 5 is rejected under 35 U.S.C. 102(b) as being anticipated by Horton (U.S. Patent No. 4,549,567). The patent to Horton discloses a device for dividing a stream of particulate material into at least two substreams, the device comprising a rotor (34) and a housing (10) having outlet ducts separated by means of partition walls (18). The radial partition walls can be adjusted in the circumferential direction, col. 3, lines 44-46.

Allowable Subject Matter

Claims 6 and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 8 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
